LEK D-M PLUS

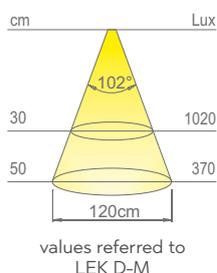

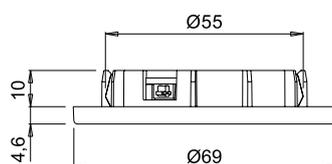

with plug & play power cable

Watt	Volt
2W	24VDC

LEK D-M can be configured as desired in satin nickel, black touch or white finish using metal finishing rings, which can also be interchanged during installation.

LEK D-M is supplied with a 2000mm Plug&Play (patented) cable, allowing for easy disconnection from the spotlight. The Micro24 male connector features reversed polarity, ensuring that the first activation defaults to the warmest colour temperature.

Colour appearance	D-Motion white
Colour temperature	2700 - 4000 K
Luminous flux	328 lm
Luminous efficiency	164 lm/W
CRI	93 Ra

LEK D-M PLUS

recessed dual colour LED spotlight

LEK D-Motion PLUS is a symmetrical light projection spotlight for recessed installation in both through and blind holes, recommended for use in any furniture element. Made from thermoplastic polymers with a metal finishing ring, it integrates a dual colour dimmable LED light source and an opal diffuser. The luminaire is supplied with a 2000mm Plug&Play (patented) cable, which allows it to be easily disconnected from the spotlight and exits both axially and radially to the installation surface. LEK D-M can be configured as desired using metal finishing rings, which can also be interchanged during installation. Power supply not included, to be ordered separately.

Patented.
